

PLATEAU METEOROLOGY
Vol. 41 No. 6 December, 2022

CONTENTS

- The Analysis of Water Vapor Sources of Extreme Precipitation in Different Subregions of Qinghai-Xizang Plateau during the Snow Season from 1979 to 2018··· *WANG Weiguo, LI Hongyi, ZHU Xiaofan, XIE Zeming, WANG Jian, HAO Xiaohua* (1367)

Influence of the Qinghai-Xizang Plateau Spring Snow Cover Variation on the Boreal Summer Intraseasonal Oscillation
..... *CAO Yanchao, WANG Xiaochun* (1384)

Characteries of Boreal Autumn Hadley Circulation over the Asian Domain and Its Relationship with Tropical SST
..... *DU Mengying, LI Yan, FENG Juan* (1399)

Low-Frequency Characteristics of Large-Scale Persistent Low Temperature Events in Winter in China and its Relation to Atmospheric Low-frequency Oscillation *TAN Ying, LI Liping, SHI Chunhua, MAO Weiyi, LI Yige* (1410)

Relationship between the Subtropical Westerly Jet and Summer Rainfall over Central Asia from 1961 to 2016
..... *REN Guoqiang, ZHAO Yong* (1425)

Temporal and Spatial Dynamic Change of Soil Water-Heat and Its Response to Meteorological Factors in an Inland River Basin in Low Coteau Area *CHENG Wenju, XI Haiyang, SI Jianhua, CHEN Yuqing* (1435)

Baseline Climatology of Environmental Parameters for Three Severe Convective Weather Phenomena over Middle-Low Areas of China
... *TIAN Fuyou, ZHANG Xiaoling, CAO Yancha, SUN Jianhua, ZHENG Yongguang, YANG Xinlin, HAN Xuqing, MAI Zi* (1446)

Analysis of a Sea Fog Event Caused by an Extratropical Cyclone over the Yellow Sea and the Bohai Sea
..... *LIU Longsheng, HUANG Bin* (1460)

The Mountainous and Plain Areas on the Northeastern Margin of the Qaidam Basin Contrast Study on Raindrop Spectrum Characteristics
..... *PENG Wang, LI Qiong, WEI Jiahua, QIAO Zhen, SHEN Weiwen, BAI Wenwen, HE Julong, QI Changxian* (1471)

Water Vapor Condition and Instability Analysis of a Rainstorm in Northern Guanzhong
..... *GUO Damei, PAN Liuji, LI Mingjuan, QU Liwei, SHI Yueqin, ZHANG Li* (1481)

Varation Characteristics Causes of Autumn Rain in Westem China *MEI Shuangli, CHEN Shangfeng* (1492)

A Comparative Study on the Surface Flux Characteristics of Two Types of Typical Forest Underlying Surfaces in South of the Five Ridges *LIU Yujia, WEI Zhigang, WANG Huan, LI Xianru, GUO Shitong, MA Li* (1501)

Study On Energy Balance and Evapotranspiration of an Artificial *Caragana korshinskii* Shrub Land in Ordos Plateau
..... *MA Qimin, LI Yongshan, WANG Haibing, JIA Xiaopeng* (1511)

Identification Criteria of Nationwide Cold Wave and Its Climate Change Characteristics in Winter
..... *LIN Shu, HUANG Pengcheng, LU Guoyang, LI Hongying, DUAN Xinyu, WANG Rui* (1522)

The Vertical Structure of Orographic Precipitation during Warm Season in the Sichuan Basin and Its Surrounding Areas by Using GPM Dual-frequency Spaceborne Precipitation Radar *SHEN Chengfeng, LI Guoping* (1532)

The Trend Analysis of Future Precipitation and Temperature in the Mountainous Regions of Heihe Mainstream Based on the CMIP6 Multi-Model *CHEN Zexia, ZHU Rui, YIN Zhenliang, WANG Lingge, FANG Chunshuang, LU Rui* (1544)

Evaluation and Projection of Climate Change in Southwest China Using CMIP6 Models
..... *YANG Mingxin, XIAO Tiangu, LI Yong, HU Tao* (1557)

Remote Sensing Drought Monitoring and Assessment in Southwestern China based on Machine Learning
..... *JIA Hejia, LI Xiehui, WANG Lei, XUE Yuting, LIN Huiquan* (1572)

The Impact of Surface Synoptic Circulation Types on Air Quality and the PM_{2.5} Concentration Forecast in Fen-Wei Plains
..... *LIU Hui, ZHANG Xuting, HUANG Xin, HU Bo* (1583)

High Resolution Numerical Simulation of an EF4 Tornado in Funing, Jiangsu Province *ZHU Haoqing, ZHAO Yu* (1599)

Research on a Quality Control Method for L Band Second-Level Radiosonde toward Assimilation Applications
..... *WANG Dan, WANG Jincheng, TIAN Weihong* (1615)

Blending Scheme with Mixed Truncation Scale and Its Application in Southwest Regional Model.....
..... *TIAN Gaoshan, CHEN Yaodeng, GAO Qingjiu, ZANG Zengjiang* (1630)

(EOFV)
