

PLATEAU METEOROLOGY

Vol. 43 No. 4 August, 2024

CONTENTS

- A Comprehensive Review of the Application Research of the WRF-Hydro Fully Coupled Atmosphere-Land-Hydrology Model
..... *LI Zhenjie, MENG Xianhong, SHU Lele, ZHAO Lin, LI Zhaoguo, DENG Mingshan, CHEN Yaling, CHEN Hao* (809)
- Analysis of Changes in Precipitation Concentration and Seasonal Precipitation Characteristics in the Three River Headwaters
Region over the Past 60 Years..... *DU Juan, YU Xiaojing, LI Xiaodong, AO Tianqi* (826)
- Snowfall Characteristics in Winter over Qinghai-Xizang (Tibetan) Plateau and Its Key Circulation
..... *SHEN Hongyan, QIAO Shaobo, FENG Guolin, GONG Zhiqiang, WEN Tingting, FENG Xiaoli* (841)
- An EOF-Based Study of Precipitation Characteristics and Their Responses to Different Configurations of Summer Monsoon
in the East Asian Monsoon Region from 1951 to 2020 *MA Zhanghuai, WANG Yibo, GAO Zeyong* (855)
- Fine-scale Simulation Study of Climate Characteristics along the Qinghai-Xizang Railway
..... *LU Fuquan, YANG Yaoxian, HU Zeyong* (868)
- Impact of Satellite Microwave Hygrometer Data Assimilation on the Yarlung Zangbo Grand Canyon Area Heavy Rain
Simulation *FU Zilin, WANG Lei, LI Xiehui, LIANG Peile* (883)
- Two Modes of Westerly Jet over the Asian Continent in Mid-Summer and Their Relationship with East Asian Atmospheric
Circulation Anomalies *LI Shuangyin, ZHANG Yaocun, HUANG Danqing, KUANG Xueyuan* (895)
- Research on the Characteristics of Typical “Southwest Type” Basin Vortex in the Sichuan Basin
..... *ZHANG Yaxin, XU Dongbei, LI Yueqing, LI Yichao, GAO Lan, YAN Ruotong* (905)
- Extreme Characteristics and Formation Mechanism of Heavy Rainfall in the Middle Reaches of the Yellow River from July
to August 2022 *QIAO Chungui, WANG Guoan* (919)
- Analysis of Large-scale Atmospheric Circulation and Associated Precursory Climatic Signals for Exceedingly Less Meiyu
Precipitation over Zhejiang in 2018
..... *MA Hao, CHEN Bomin, FAN Gaofeng, LIU Xuehua, XIAO Jingjing, GAO Dawei, YIN Yue* (933)
- Statistical Analysis of Spatial and Temporal Characteristics and Risk Probability of Late Spring Coldness in Beijing-Tianjin-
Hebei Region..... *TONG Jun, MENG Xuqin, ZHAO Liang, PENG Jiuwei, ZHANG Xiaohui, CHEN Siyu* (955)
- Independent Quality Control of High Spatiotemporal Resolution Surface Temperature Observations from Automatic Stations
..... *SHANG Yiyi, ZHANG Bing, QIN Zhengkun, LI Xin* (967)
- Application of the Regional Air-sea Coupled Model WON to the Simulation of a Heavy Precipitation Event over the Low
Latitude Highland in Southeast Asia *GUI Shu, CAO Jie, YANG Ruowen, LI Rui* (982)
- Evaluation of Land-atmosphere Coupling Strength in Low-latitude Highland of Southeast Asia by WRF Model Parameteriz-
ation Schemes *WANG Xiuzhi, YANG Qidong, HE Shuaichen, SHI Zilin, LÜ Bingrong* (995)
- Influence of Circumglobal Teleconnection on the Interannual Variability of Winter Precipitation over the Southeast Asian
Low-Latitude Highlands *XU Mingyang, CAO Jie* (1011)
- The Spatial-temporal Distribution of the Difference in Summer Precipitation Difference Over Two Sides of the Ailao Mountain
and Its Relationship with Monsoons *LIAN Yu, XU Yanyan, LI Huahong, CAI Lei* (1026)
- Spatial and Temporal Characteristics of Aerosol Direct Radiative Forcing during Spring in the Indo-china Peninsula
..... *HE Shuxuan, FAN Wenxuan* (1039)
- Study on Characteristics and Causes of Regional Meteorological Drought in Yunnan from April to June in 2020
..... *ZHOU Jianqin, TAO Yun, FU Rui, LI Meng* (1052)
- Effects of Climate Change and Human Activities on Net Primary Productivity in Yunnan Province
..... *XU Hong, CHENG Jinxin, HE Yuqin, WANGYU Youting, ZHANG Maosong* (1064)
- Adaptation of Yunnan Flue-Cured Tobacco Suitable Planting Regions to Climate Change
..... *DOU Xiaodong, HOU Shengfang, LI Meng, JI Wenjuan, ZHOU Jianqin, LU Weikun* (1076)
