

PLATEAU METEOROLOGY

Vol. 45 No. 5 October, 2026

CONTENTS

Research progress of dust weather impact on aviation industry in the Qinghai-Xizang Plateau	Li Yaohui, Liu Yuyao, Wu Hanhao, Ming Lang (1221)
Wind field characteristics in the lower and middle troposphere over Hongyuan in the eastern Qinghai-Xizang Plateau	Liu Yuyu, Jiang Xingwen, Yang Yang, Du Tao (1232)
Spatiotemporal distribution and probabilistic model of lightning current amplitude in the Liangshan region, southeastern margin of the Qinghai-Xizang Plateau	Ji Jingxiao, Li Bing, Liu Jun, Du Zedong, Yang Xiuqin, Liu Yikun, Shen Daoyu, Deng Weiwen (1247)
Improvement of the CLM4-LISSS parameterization scheme and its impact on simulating lake water temperature in Lake Ngoring	Yu Tao, Qian Chongliang, Wen Lijuan, Wang Mengxiao, Chen Jinxuan, Chen Shiqiang, Su Huan, Wang Hao (1260)
The precipitation retrieval by using gradient boosting algorithm and its application in the Source Region of the Yellow River	Wang Zhuoyuan, Wen Jun, Zhong Xuemin, Yan Jing, Liu Zixi (1274)
Numerical simulation study on the impact of anthropogenic heat on the urban heat island in Beijing	Wang Ruotong, He Jianjun, Li Yarong, Gong Sunling (1287)
Land surface evapotranspiration mapping by using Fengyun-4A meteorological satellite data over the Yellow River Source Region	Yan Jing, Wen Jun, Wang Zhuoyuan, Zhong Xuemin, Liu Zixi (1304)
Validation and diagnosis of HYDRUS-1D simulations of soil hydrothermal processes in the Alxa Desert Region based on multi-source observations	Wang Zhaopei, Hu Haijun, Yu Tengfei, Han Tuo, Su Yonghong, Cui YuJun, An Ni (1315)
A comparative analysis of soil hydrothermal changes in the grain for green program areas on the Loess Plateau	Zhang Xinxin, Zhang Tangtang, Li Jianglin, Li Zhenchao, Yu Ye (1330)
Study on climatic aridity and humidity variations based on hydrologic cycle process over Shaanxi	Lu Shan, Yu Haipeng, Ren Yu, Zhang Hongfang, Shen Jiaojiao, Yao Jing (1341)
Diagnostic analysis of a heavy rainfall event on the northern foot of the Qinling Mountains without a low-level jet	Wu Maifeng, Qiao Shuting, Wu Weigang, Wang Xiaohu, Guo Damei (1354)
Temperature layout and testing in the double-75-m ³ expansion-type cloud chamber	Deng Yupeng, Liu Zhitao, Wang Li, Yang Yang, Li Zhenghao, Zhao Liwei (1367)
Statistical characteristics of raindrop size distribution of extreme hourly precipitation during the Meiyu period in the eastern Jianghuai region	Yang Mengxi, Liu Mei, Shen Feifei (1379)
Regulatory mechanism of the inversion layer on the microphysical environment of aircraft icing within trough-cold front cloud systems in Hebei Province	Wang Wuyi, Hou Shaoyu, Huang Zhaochu, Hu Xiangfeng, Peng Min, Mai Rong, Lü Feng, Cui Yi, Lü Xin, Li Xiaolong (1393)
Analysis of rainfall scavenging efficiency for atmospheric pollutants in the central urban area of Chongqing	Chen Xiaomin, Zou Qian, Hu Chunmei, Liao Zhiyi (1406)
Spatiotemporal characteristics of summer extreme precipitation in arid and semi-arid regions of Northwest China	Yang Yaoxian, Zhang Weiwei, Hu Zeyong, Lu Yao, Fu Chunwei, Xie Yongkun, Sun Fanglin (1420)
Study on drought monitoring in rain-fed agricultural area of Northwest China based on BMA Model	Guo Jifu, Zhang Jifang, Zhang Qiang, Zhao Funian, Zhao Hui (1434)
Spatiotemporal variation characteristics of dry-wet abrupt alternation events during the flood season in the Sichuan-Chongqing region	Shi Wenqing, Li Xiehui, Wang Lei, Chen Yutong, Chen Keyuan (1448)
Modeling and evaluation of WRF multi-physical parameterization schemes for the "23.7" extreme precipitation event in North China	Huang Yuetong, Sun Bo, Wang Huijun, Yu Entao, Chen Dong, Dai Yongling, Tang Wenchao (1464)
A study on graded thresholds of critical areal rainfall for flood warning in small and medium-sized river basins: a case study of the Yiluo River Basin	Ge Zhenfei, Zhang Xia, Zhang Jingyi, Wang Di, Qiao Chungui (1478)
Research on multi-parameter comprehensive identification and prediction index of hail based on ground-based radar network: a case study in Hebei Province	Meng Lei, Yang Yuanjian, Wan Bingchen, Chu Zhigang, Zhang Wenjie, Fan Junhong, Liu Yushan, Zhou Shuang (1489)
Statistical analysis and synoptic characteristics of typical elevated convection events during the cold season in Henan Province	Wu Wei, Shan Tieliang (1506)
